

European Certification for Informatics Professional (EUCIP)

The EUCIP programme is a unique certification that provides a comprehensive overview of the entire IT domain.

- Plan:** Teaches the use and management of Information Systems
- Build:** Covers the acquisition, development and implementation of Information Systems
- Operate:** Deals with the operation and support of Information Systems

What attracts people to EUCIP?

- EUCIP is a European qualification developed by CEPIS (Council of European Informatics Societies)
- Fast track access to DCU's Graduate Diploma in Information Technology
- FETAC Level 6 programme
- Flexibility: online learning, workshops and/or classroom-based instruction
- EUCIP provides a non-traditional pathway to full professional recognition
- Breath of applicability

Who are your potential customers?

- Individuals looking to break into the industry
- Professionals already in the IT domain

MAKE IT WORK AT YOUR CENTRE

1. Purchase a EUCIP Candidate Test Unit (CTU) for every candidate that includes:
 - Training Manuals and online materials for the EUCIP programme
 - An online sample and certification test per EUCIP module
 - EUCIP Certification (on successful completion of all three modules)
2. Decide on the format of course delivery e.g. self-study, blended etc. and set your own course price
3. Avail of our online training tutorials and expert advice from the ICS Skills support team
4. Facilitate test sittings at your centre through the ICS Skills award-winning online Automated Test System (ATS)
