

## Health Informatics Training System (HITS)

HITS is a training and certification solution based on the core concepts on which more specialised IT functions in the healthcare sector are based.

The course modules are structured into three units:

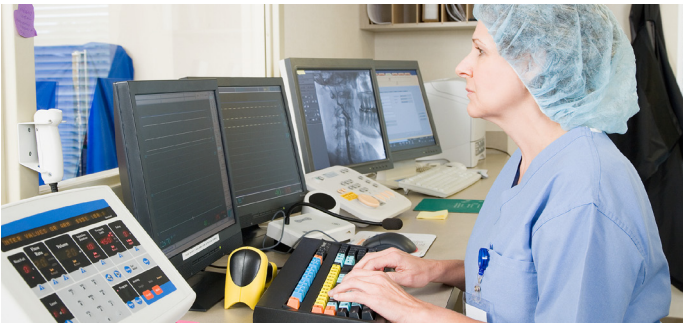

- IT Basics in Healthcare
- Information Management in Healthcare
- IT Systems in Healthcare

## What attracts people to HITS?

- Independent and recognised certification awarded by ICS Skills and HISI
- Online learning programme offers 24 hour access
- Delivers the ICT knowledge and skills required by a modern healthcare system in approximately 20 hours of study

## Who are your potential customers?

All healthcare workers whatever their function within the sector.

### MAKE IT WORK AT YOUR CENTRE

1. Purchase a HITS Candidate Test Unit (CTU) for every candidate that includes:
  - access to the course content online
  - study aids
  - sample test
2. Facilitate test sittings at your centre
